

User Guide

1. Introduction

The TechCare application is a mobile-oriented Progressive Web App (PWA) designed to help users request repair services for electronic devices and home appliances. The system allows users to register, log in, submit repair requests and track the progress of their service in real time.

2. System Requirements

- Device: Smartphone or computer
- Browser: Google Chrome, Safari or any modern browser
- Internet Connection: Required

3. How to Use the System

Registration

1. Open the application
2. Navigate to the Register page
3. Enter Full Name, Email, Phone Number, Password and Click Register
4. A success message will confirm registration

Login

1. Go to the Login page
2. Enter email and password
3. Click Login
4. User is redirected to the Home Dashboard

Request a Repair

1. From Home, click Request a Repair
2. Select the Device type (e.g., Smartphone, Laptop), then describe the issue, choose service method (Pickup / Drop-off) and click Submit Booking.
3. A confirmation notification will appear

Track Bookings

1. Click Track
2. View all submitted bookings
3. Status updates include the following status,
 - Pending
 - Repairing
 - Completed

Logout

1. Click Logout in navigation bar
2. User session is terminated
3. Redirected to login page

Admin Access

Use the following Admin login credentials to login as an administrator,

- Email: admin@techcare.com
- Password: admin123

Admin can perform the following functions,

- View all bookings
- Update booking status

4. Notifications

Following alerts are available,

- Booking confirmation alerts
- Status update notifications
- Visual indicators for booking progress

5. Mobile Usage (PWA)

Users can install the application in their iOS device by following the following steps,

1. Open in Safari ([http://192.168.X.X:5000/ login-page](http://192.168.X.X:5000/login-page)- use your PC's IP address)
2. Tap Share → Add to Home Screen
3. App will behave like a native mobile application

Users can install the application in their Android device by following the following steps,

1. Open in Google Chrome ([http://192.168.X.X:5000/ login-page](http://192.168.X.X:5000/login-page)- use your PC's IP address)
2. Tap the **menu (:)** in **Chrome** (top-right corner).
3. Select **“Add to Home Screen”** or **“Install App”** (if available).
4. Confirm by tapping **“Install”** or **“Add”**.
5. The TechCare app icon will appear on your home screen.
